Hey Gary,

I'm having issues getting into SEMS, could you send me the document?

Jessica Knabel

Subject: San Jacinto Web Site

Jessica,

Please add the draft Feasibility Study (SEMS #690703) to the San Jacinto web site; and put it in the RI/FS Reports section after the Remedial Alternatives Memorandum & after the language below (highlighted somehow?):

*Below is a **DRAFT** of the Feasibility Study. It is not final, and will be revised in a number of areas. The recommended remedy described in the draft is inaccurate – there has been no remedy recommendation made by EPA. EPA will recommend a proposed plan for site cleanup for public comment after the Feasibility Study is final.*

Thanks,

Gary Miller
